

Plinth Medical Upholstery Order Form

Manufacturer	Plinth 2000	Yes / No
Name of Manufacturer if not Plinth 2000		
Couch Serial Number		
Colour		
Upholstery Sections Required		

Measuring Instructions

It is important to measure the upholstery as follows:

1. Measure across the mid point of the upholstery section to avoid any shaping at the ends.
2. Place a flat item, such as a rule against each side of the upholstery section and measure between the two items as shown in the diagram below

Please do not measure around the upholstery

	<p>A = cm</p> <p>B = cm</p> <p>C = cm</p>		<p>A = cm</p> <p>B = cm</p> <p>C = cm</p>
	<p>F = cm</p> <p>G = cm</p>		<p>F = cm</p> <p>G = cm</p>
	<p>H = cm</p> <p>I = cm</p>		<p>H = cm</p> <p>I = cm</p>
	<p>Depth = cm</p>		<p>Depth = cm</p>

Notes for ordering new upholstery

Replacement upholstery is a key part to extend the useful working life of a couch, helping reduce the risk of infection and keeping the couch looking smart and clean for patients.

Upholstery for Plinth 2000 couches will be supplied pre drilled so the existing bolt fixings on the couch can be used to attach the new section of upholstery.

Upholstery for other manufacturers couches will be supplied without any pre drilled holes, so they can be fixed using wood screws as we are unable to identify the exact location of the original fixings.

Colour matches cannot be guaranteed due to a number of factors such as ageing of fabrics, variations within batches of the fabric itself and some fabrics may be discontinued. We will always do our best to get as close a match as possible. If you are able to send us a sample of fabric with the order this will be helpful.

Forms can be emailed to customerservice@plinthmedical.com

Please note: We are unable to accept any returns for incorrectly ordered items.
